

# Early career researcher collapses

TIETEENTEKIJÖIDEN LIITTO  
FORSKARFÖRBUNDET

The Finnish Union of University Researchers and Teachers

Unions are not just about collective bargaining and strikes. Jytte, the Jyväskylä branch of the Finnish Union of University Researchers and Teachers, supports its members when they face discrimination or harassment, advances the position of grant-funded researchers, and plays an active role in higher education policy on the national level. Become a member and join us in making the work environment better – for all of us!
